Policy on Quality, Environment, Health and Safety at Work

Stavros Kassidiaris SA' s management team is committed to meeting the regulatory requirements of stakeholders through the establishment of a single Quality Management, Environment, Health and Safety at Work system. Moreover, it is committed to continually improving the company's capability and production efficiently and effectively, while ensuring that all the human resources of the company who are involved, understand these requirements (to the extent that each person is involved).

Our goals:

- Promoting equality of opportunity, transparency, treatment and non-discrimination
- Ensuring the required resources to operate the system effectively
- The assignment of activities and the assurance of effective internal and external communication
- The continuous updating and training of human resources and the encouragement of its active participation in the improvement of the working environment, in environmental protection and in the Quality Management, Environment, Health and Safety at Work activities in its field of activity
- Conducting system reviews, decision making and support for improvement actions
- Continuous reduction of errors and omissions
- Monitoring development/requirements at market, legislation and science level
- Transfer the know-how between personnel
